*Test Driven Development / Project Management / Workflow & Content
Service Level Agreements / Troubleshooting & Quality Resolution*

TECHNICAL PROFICIENCIES

Platforms: UNIX (Debian, Centos, Ubuntu), Windows, Mac OS

Languages and Frameworks: JavaScript, Vue, PHP, Laravel, MVC, HTML, CSS/SASS, Bootstrap, Bulma, JQuery, Axios, AJAX, Web APIs and WordPress

Tools and Platforms: LAMP & LEMP Stack, Microsoft IIS Stack, SQL, Apache, Nginx, VPS, AWS, Digital Oceans, Bluemix, Git, GitHub, Jenkins, Redis, Webpack, Piwik, Google Analytics and Elasticsearch.

PROFESSIONAL EXPERIENCE

Kaiser Permanente (2010 – Present)

Consultant, Anaheim, CA

(2016-Current)

Orchestrated technical support as the principal Developer and Technology Consultant for Orange County. Setup and configured VPS servers on both AWS and Bluemix. Configured LAMP/LEMP servers for new web applications. Provided critical technical interface and support to company personnel and doctors.

Key Achievements:

- Spearheaded the design, development, and maintenance of two distinct web applications for the Orange County service area.
- Utilized Elasticsearch for indexing, Redis for cache management and queue manipulation, Piwik for analytics, and S3 for mass storage and backups.
- Translated an out-of-date Human Resources database to a technically current web application for indoctrinating and training new hires and transfers.
- Updated system applications lowered Human Resources task time from six months to eight hours.
- Maintained system integrity for 150 active users managing 4,000 employees and increasing.
- Created a social media platform for 75 Orange County physicians to bond, join groups, share pictures, and post stories in a collegial, non-work atmosphere.

Page Two

Desktop Support, Anaheim, CA

(2013-2016)

- Organized a Q&A system, like stack overflow, to encourage peer discussion on enterprise applications and hardware.
- Engineered the department dashboard to gain real time data on Service Area and Enterprise system outages, on call schedules, maintenance schedules, resources, and announcements.
- Created technical documentation for Pharmacy applications, laboratory systems, and kiosks.
- Developed an end-users tool to search and store links for internal sites and resources.
- Fashioned web tools and scripts for IP management.

Help Desk, Physician Support, Corona, CA

(2010-2013)

- Maintained a 97% customer service satisfaction rating.
- Supported physicians and Kaiser executives with technology rollouts and system upgrades to the electronic medical record system.

Help Desk/Technical Support (2010)

AVG (AU/NZ) Pty Ltd., Melbourne, Australia

- Provided technical support for common computer virus and virus-related issues and configuration of software firewall.
- Counseled customers through phone conversation and email regarding technical issues.

Systems Administrator (2008 – 2009)

Spokane Computer Geeks, Spokane, WA

- Designed, developed, and maintained local small business websites with WordPress and Joomla.
- Directed Support, Maintenance, and Deployment of Windows systems for 25 business.
